---

### EXPERIENCE

#### 1. SOFTWARE ENGINEER AT [HLC Technologies Limited \(https://www.helicalinc.com\)](https://www.helicalinc.com).(September 2018 toPresent)

Helical is a USA based software company which has operation teams in India and Bangladesh. Helical provides powerful yet simple and automated cyber security solutions for businesses and organizations.

#### 2.Jr. SOFTWARE ENGINEER AT [Dream71 Bangladesh Ltd](https://www.dream71.com).(May 2017 to August 2018)

One of the most prominent and updated companies which deals with software & IT related issues. Initially, it was founded in 2014 with a view to put a mark in the rapidly growing software & gaming industry of the country.

## Project

### Pocket Sales71:

'Pocket Sales71' is a complete sales solution app for the Pharmaceuticals, FMCG and other distribution companies that provides Sales Guidance, Employee Tracking, Order Listing, Lead Generation Module, KPI and other unlimited facilities both for sales persons and the management. You can track your sales employee, monitor them and conduct your business within a short time.

. **Technology Used:** Spring, Spring MVC, Spring Boot, Spring Security, Spring Data JPA, Hibernate, MySQL, Apache Tomcat

### Endpoint IT Security Policy Auditing:

- Real time, simplified visibility into critical security indicators across a range of hosted devices.
- Ideal for main & remote offices, independent contractors and other third party providers.
- Monitor company security policy compliance for:
  - Wi-Fi Security
  - Anti-Virus / Intrusion Prevention Systems
  - Disk Encryption
  - Vulnerability Scanning
  - Patch Management
  - Secure Configuration Monitoring
  - Authentication (password management, two factor authentications, etc.)

**Technology Used:** Spring, Spring MVC, Spring Boot, Spring Security, Spring Data JPA, Hibernate, MySQL, Nginx, Micro service, Apache Tomcat. Python.

### TODO APP:

A Simple todo app to show understanding of software development concepts . Used spring boot as backend and Thymeleaf as frontend framework. As its small monolithic app so didnt separate frontend and backend. Used spring security to secure app. Now login access is admin/1234.
